IMMUNE SYSTEM:

KEY PRODUCT: Immune Maintenance Formula provides the nutrition to keep the immune system built up.

The immune system is so important to the overall health and warding off unwanted 'invasions' to the body. There are many ailments due to the suppression of this system. Overall, very important to look after. Taking antibiotics does not help, especially long term as many do. Antibiotics generally kill off the harmful bacteria along with the good, but they don't repair the base problem.
