

# Power Greens Ginger Lemonade Mocktail

FEB 7, 2024 | PRODUCTS

This is your new afternoon pick-me-up. Bonus: Power Greens has a subtle sweet flavor, there is no need to add additional sweetener.

Note: If you don't have a frother, place the tea, lemon juice, and Power Greens in a blender on low until combined (about 30-

seconds).

Serves 1

## INGREDIENTS:

1 package or scoop Power Greens

2 bags Ginger Root Tea

1/2 cup boiling water

1/4 cup fresh lemon juice

seltzer, to top

3-4 dashes of orange bitters

lemon slices, garnish

ice, garnish

fresh mint, garnish

## INSTRUCTIONS:

1. Pour boiling water over the tea bags in a heat-proof jar or mug, making sure to cover the tea bags. Let it steep for five minutes and then remove the tea bags. Cool the brewed tea to room temperature or refrigerate the night before.
2. Add the lemon juice and Power Greens to the jar or mug and use a frother to combine (a blender also works).
3. Add the ice to a large glass, pour the Power Greens mixture over the ice, top with seltzer, add the dashes of bitters, garnish with lemon slices and fresh mint. [Power Greens Ginger Lemonade Mocktail | Nature's Sunshine \(naturesunshine.com\)](https://www.naturesunshine.com)
